## **Chassis promotes Alexandre Debrye to vice president and general manager of Asia**

**SOUTHFIELD, Mich.** – Oct. 19, 2017 – Chassis, a global automotive supplier of precision casting and machining solutions, today announced the promotion of Alexandre Debrye to vice president and general manager of Asia.

Reporting to Chassis President and CEO Doug DelGrosso, Debrye is responsible for strategically positioning Chassis Asia as an industry leader in the local and global automotive market.

"By building a robust team to solely serve Asia, Chassis has achieved key business and manufacturing milestones in the region over the last 12 years to become an established strategic partner to our customers," said DelGrosso. "Alex brings a strong range of engineering, sales and leadership experience to the executive team, and we are confident that his automotive knowledge will help further drive growth in the Asia market."

Prior to the promotion, Debrye served as a Chassis customer manager since September 2016, building collaborative relationships with key customers. Previously, Debrye was a system application engineer and technical program manager for Plastic Omnium, where he led a team of engineers, serving as a key customer interface. Debrye also worked in various engineering capacities with SMW Automotive, a predecessor of Chassis.

Debrye earned a Master of Science degree in automotive engineering from the ESTACA University in France.
